

Hanut India Ex Networking Racks

Value for money networking racks with enhanced cable management features

Hanut Ex 19" networking racks are "value for money" racks having enhanced cable management features.

Key features:

► [Special] Cable routing panel

Hanut Ex networking racks have a special panel at the bottom of the rear door. The LAN (data) cable entry and exit from the networking rack through this panel is much easier and convenient than cable entry and exit from the rack's base.

► High capacity cable entry / exit provision

To enable easy entry and exit of large number of LAN (data) cables the Ex networking racks have cable entry / exit provision in top and base as well as in the special rear panel.

► Hanut India Ex networking racks have high quality powder coat finish and look good

► Wide range to meet your requirements

Ex networking racks are available in 18U, 22U, 27U, 32U, 36U and 42U high sizes. Hulasi offers a comprehensive range of accessories for use with its 19" networking racks.

► Fast Installation

Hanut 19" networking racks ship fully assembled with accessories installed. As such minimal on-site installation support is required. Just unpack the rack, install the castors or leveling feet, tighten screws and the networking rack should be ready for use.

Hanut India Ex Networking Racks

Value for money networking racks with enhanced cable management features
